Practice

Primary Care Academic Detailing Service

Family physicians in the Waterloo Wellington LHIN like yourself, are invited to participate in brief educational visits with an academic detailer to discuss objective, balanced, clinical evidence on a variety of topics tailored to your practice setting and specific questions.

Visits are now available on the following topics:

- Managing opioid therapy for patients living with chronic non-cancer pain
- Non-pharmacological and non-opioid options for patients living with chronic non-cancer pain
- Managing care for patients living with opioid use disorder
- Managing benzodiazepine use in older adults (coming July 2019)

WHO IS OFFERING THIS SERVICE?

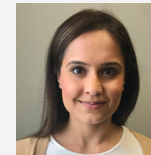

This service is being provided by the **Centre for Effective Practice**, a not-for-profit organization.

The CEP's primary care academic detailing service is funded by the Government of Ontario, and free of commercial interest.

WHAT ARE THE BENEFITS?

You will receive the latest balanced, evidence-based information and clinical pearls in a time efficient way. The one-on-one discussion is tailored to your questions, and delivered confidentially in your office. You can choose the time and place that's best for you, and you will receive one Mainpro+ credit every visit.

MEET YOUR ACADEMIC DETAILER

Anu Thind HBSc, PharmD

Anu is a clinical pharmacist and an academic detailer for the Waterloo Wellington LHIN. She has strong foundational experience in pharmacotherapy and clinical evidence appraisal, and is free of commercial interest. Anu has undergone extensive training in clinical evidence relevant to the topics she delivers.
