

System Coordinated Access

Are you interested in electronic referral?

The eHealth Centre of Excellence's System Coordinated Access (SCA) program is supporting the development of the **Ocean eReferral Network** for the Waterloo Wellington region and beyond.

Benefits include:

- Integration with your electronic medical record (EMR), so you can send referrals quickly and directly
- Standardized forms, with referral information pre-populated from your EMR
- Automatic notifications in your EMR regarding referral status and outcomes
- A map-based directory of available services and programs, complete with wait times
- Patients can choose to receive email notifications with referral status and appointment details
- All costs covered by the SCA program
- Training and on-site support can be provided

Send complete referrals quickly and seamlessly right from your EMR, using our secure online network!
