Benefits of eReferral Include:

- Integration with most EMRs allow you to send referrals quickly and receive updates in your EMR.
- Standardized referral forms are populated automatically with patient information from your EMR and include integrated clinical guidelines to support best practice
- Discover services and programs to refer to using the map-based directory, complete with wait-times where available.
- Easy and secure in-solution communication reduced administrative tasks, such as the need to make follow-up calls.
- Patients can confirm appointments online and choose to receive email notifications, which include referral status and appointment
